¹ The California Dept. of Insurance online License information has changed since their link to the NAIC's NIPR System. The "Original Issue Date" of the Adjuster Subsystem, unlike it's a Producer/Agent /Broker counterpart, now shows my license's "Original Issue Date" as being 12/13/2007 matching the "Status Date" which is also 12/13/2007. There was gap of over a year from 2006-2007 when the required Adjuster Bond lapsed due to the Insurer withdrawing from the market. Once replaced, the License was re-issued but treated as "new" unlike how similar lapses are treated for Producers where the Original Issue date remains unchanged. The "Status Date" is supposed to be the earliest contiguous date of uninterrupted licensure.

SUMMARY OF SIGNIFICANT INDUSTRY CONTRIBUTIONS:

1978- Created Loss Control Programs for Real Estate Brokers and Insurance Brokers. Significant

losses were prevented and a reduction in claims frequency was achieved. Loss Control and Best Practice(s) procedures are now considered standard operating practices with many other professions and by Corporate Boards of Directors.

1984- Created tight Attorney Management & Litigation Guidelines as a TPA which were adopted by several mainline Insurers and Self-Insureds. The Guidelines also included requirements for claim resolution plans and strategies. Guideline compliance was an included item in the Claims Auditing services as described below.

The Claims Company also began development and implementation of an Adjusting Company Billing System and, later as below, a Claims TPA tracking System, the first of its kind done in a PC Network environment using an ANSI complaint SQL relational Database system.

1986- Created Unique Qualitative Claim Auditing and Compliance Techniques which required review of over 50 claim management issues together with a Computer system to track and generate statistical performance reports on an overall, divisional and individual basis. Such techniques were adopted by Internal Auditing teams at several Insurers & Re-insurers and made a permanent part of the LA Rapid Transit District (RTD- now known as the MTA) RFP for Bi-Annual audits of their TPA. The initial 1986 Audit was the first time it was subsequently proven quantitatively that increasing claims staff expense so as to reduce per person caseloads would result in a minimum overall total incurred savings of at least \$5 to every \$1 spent. Our Auditing processes and the performance issues reviewed, graded, and mirrored many of the claim handling requirements of the Fair Claim Practice Standards recommended by the National Association of Insurance Commissioners (NAIC). Most States have adopted the NAIC Model act as part of their own Fair Claim Practice regulations.

Our Training Programs were provided many Insurers on California Fair Claim Practices. When paired with our Claim Auditing services, significant claim costs savings were experienced with a drop in the frequency of Bad Faith Case filings.

Such services were provided to Homestead Insurance Company, The RTD, AIG Claim and Underwriting Units, Reliance Insurance Company, Home Insurance Company, Transamerica Re-Insurance Company (auditing the California Bar Association Professional Liability Program), San Diego Trolley System Claims Administrator, and others.

1986 Created Unique & Proprietary Claims Tracking TPA Software using Networked P.C.'s and a relational database every bit as statistically powerful as mainframe systems at that time.

1994- Contributed to killing the proposed NAIC Model Surplus Lines Act that would have made Surplus Lines Brokers financially responsible for the insolvency of Non-Admitted Insurers (a misguided response to the crisis created by phony offshore Insurers)

1989 – Present-Association volunteer work (PLUS) as noted above, lecturing and educational publishing as noted below.

1999 – 2012- Designed Spreadsheets, that later became the basis for the California Surplus lines Tracking System -as Software program that later was cloud based to track all Non-Admitted

placements in California. The functionality included Batch Filings, Monthly Reporting and Monthly Tax Payment Vouchers and a signature ready Annual Statement and Tax Return with all required addendums.

2001- Designed and implemented a Company Wide Electronic Filing System allowing the Brokerage to be Paperless on all unbound and bound accounts with remote access capabilities.

2002- Designed& implemented the first interactive Internet Web based application processing site to automate Applications and Quoting as later featured in Rough Notes Magazine (Sept, 2002). This experience led to ELM being a Beta Site for testing of the USLI online Quote & Bind System in 2010. We were also one of the first Brokers asked to link up with the Hiscox Insurance Company small business online Quote & Bind Portal in 2012 and acted as a Beta Site..

2019- Recipient of the **Founder's Award**, given by the Professional Liability Underwriting Society to recognize "a PLUS member who has made lasting and outstanding contributions to PLUS and represents the spirit and dedication of individuals who have contributed selflessly to create, lead and improve the Society", presented on November 11, 2019. "The Founders award recognizes a member of PLUS who has made lasting and outstanding contributions to the society. The award is presented in honor plus founder, Angelo J. Gioia. Criteria used when selecting the Founders award recipient include membership in PLUS , participation in PLUS activities, creativity and innovation when needed to address PLUS tasks, amount of time and effort dedicated to the organization, promotion of PLUS in the industry and to the public in general, or other contributions to the image of PLUS and involvement in developing, implementing, improving and/or continuing PLUS programs."
